EMAIL: BRITTNEY.BEETCHER@HUSCHBLACKWELL.COM

OVERVIEW

Brittney navigates the complexities of corporate, transactional, and securities law.

Drawn to corporate law by the dynamic nature of transactions and their strategic impact, Brittney participated in transactional competitions as a law student, honing her negotiation skills and learning to identify and address multiple issues early in the process. At the same time, her work in the Sustainable Community Development Clinic taught her the importance of understanding each client's unique risk tolerance and presenting solutions that align with their goals.

In addition to her interest in corporate and transactional work, Brittney has long been passionate about renewable energy and is enthusiastic about technology and innovations that lead to a cleaner grid. She particularly enjoys assisting with matters in the energy industry and interned with the in-house counsel's office for a renewable energy development company, as well as with the Department of Energy. These roles provided her with a comprehensive understanding of the renewable energy industry's various players and complexities.

Brittney is known for her creative problem-solving, professional excellence, and clear communication. Her client-centered approach ensures that she understands and addresses each client's unique needs and goals, making her a valuable asset to the team.
