Ryan Receives 2022 Men's Health Champion Award from Whittier Street Health Center

Husch Blackwell is pleased to announce that Sean Ryan was named the 2022 Men's Health Champion by the Whittier Street Health Center in Boston during the WSHC's 22nd annual Men's Health Summit on June 25, 2022.

A partner based in the firm's Boston office, Ryan represents health systems, hospitals and other healthcare providers, counseling clients on a host of regulatory compliance, governance, contracting and employment matters.

The Men's Health Champion Award acknowledges individuals for their outstanding leadership in promoting men's health education and securing healthier futures for men from the Commonwealth of Massachusetts. "You have been an inspiration to those around you with your many accomplishments as an established leader and a passionate and powerful advocate in the community," said Frederica M. Williams, WSHC President and CEO, in a letter to Ryan. "The award is in recognition of your willingness to give back to the community and ability to empower those around you."

The Whittier Street Health Center serves as a center of excellence that provides high-quality, accessible health care and social services that achieve health equity, social justice, and the economic well-being of its diverse patient population.
