Providing pro bono legal services has been a cornerstone of our culture for more than a century. The pro bono services provided by our attorneys and professionals help meet the critical needs of individuals, nonprofits, and organizations by providing access to justice across our nationwide footprint.

Our efforts to bring impactful changes to our communities have never been stronger. In the last year, we:

donated more than 24,000 pro bono hours

expanded our pro bono team with roles focused on civil rights cases and philanthropic giving

assisted 85 minority-owned small businesses and minority entrepreneurs through our Communities for Change initiative

From helping a minority-owned tech startup get accepted into a prestigious accelerator program to assisting Afghan refugees who sought permanent U.S. residency, our 2022 Pro Bono Impact Report shares the stories of how our efforts made a difference in people's lives.
