OVERVIEW

A senior paralegal, Leslie has more than three decades of real estate experience and extensive knowledge of complex national commercial real estate transactions.

Leslie works with attorneys on behalf of borrowers, lenders, developers, landlords, tenants, purchasers and sellers in connection with acquisitions, sales, leases, developments, financing and foreclosures. She has been involved in numerous multistate, multisite transactions, including preparation of closing timelines and checklists, and organization and management of documentation.

Clients appreciate Leslie's deep and unique experience in the real estate industry. Prior to joining the firm, she held positions as a national commercial loan closer and a national commercial escrow closer. Today, Leslie collaborates closely with clients, attorneys, title officers and surveyors. She finds the detective work of due diligence gratifying, knowing it allows clients to concentrate on their business while legal teams ensure transactions are accurate and complete.
