OVERVIEW

Jamie's strength is her focus on the minute details that drive quality.

Jamie's service philosophy greets her daily in the form of a sign above her desk: "Quality. Countless unseen details are often the only difference between mediocre and magnificent." For nearly 20 years, Jamie has been driven by that motto and takes pride in her ability to artfully manage multiple filings, deadlines and schedules on behalf of attorneys and clients.

Jamie supports the firm's state and local tax (SALT), federal taxation and international tax practices. She assists clients and attorneys with a wide variety of local and multistate tax filings, including tax assessments, property tax exemptions and manufacturing tax exemptions. She assists with nexus issues and the preparation and filing of voluntary disclosure agreements. Supporting attorneys and clients in litigation related to state tax audits, Jamie also assists with state, federal and appellate court submissions.
