### Featured Experience

#### **Dismissal of OSHA Action Saves Company Millions**

Erik's team successfully persuaded the Occupational Safety and Health Administration (OSHA) to completely dismiss an enforcement action against one of the nation's largest producers of animal feed and veterinary pharmaceuticals. OSHA initially assessed six-figure penalties, as well as abatement steps that would have required comprehensive retrofitting at virtually all of the client's facilities.

Erik identified the world's preeminent expert in the industry, and his team successfully persuaded OSHA that the company's facilities were safe and compliant as designed. By convincing OSHA to dismiss the case, Erik's team saved the client more than \$10 million.
