OVERVIEW

Megan enjoys being part of a growing nationwide law firm that offers clients innovative legal services.

Although Megan primarily assists legal teams and clients in toxic tort litigation, she has experience on a wide variety of matters across industries. Her experience helping attorneys and clients includes copyright infringement, patent law and intellectual property issues; environmental matters; tax and estate cases; medical malpractice cases; and residential and commercial real estate matters.

Clients and legal teams rely on Megan for her facilitation of legal research, data collection, trial preparation, document drafting, interviewing, due diligence and review. She maintains key charts and serves as the central administrator for mass tort client files.

Megan enjoys being the team member to find answers and solutions. She appreciates being part of a nationwide legal team that is always growing and innovating, offering clients the most cutting-edge technology and collaborative strategy.
