

## STARTUPS

Husch Blackwell helps entrepreneurs direct their passion and vision into viable business models. We offer the voice of experience and a guiding hand to young companies as they develop their products and services and successfully move them to market.

The attorneys on our Startups team are subject matter authorities in dynamic industries such as technology, life sciences, and agribusiness. We offer the support necessary to launch and grow startup companies, protect their ideas, and realize their business objectives.

**Our guidance to emerging growth companies includes:**

- Business formation and structure
- Financing, including identifying investors
- Intellectual property - patents, trademarks, and copyrights
- Labor and employment issues
- Contracts and agreements
- Real estate
- Regulatory compliance
- Tax and estate planning
- Litigation
- Mergers, acquisitions, and other strategic transactions

*“One of the things I really appreciate about Husch Blackwell is it’s not just straight legal advice. You can give letter-of-the-law advice all day, but they understand that there are business issues that have to be solved as well.”*

— Chris Cheatham,  
Co-Founder/CEO,
